THE STORY

Mersey Construction needed a single supplier for site offices, drying rooms and tool stores across 40 active developments from Chester to Preston. Their previous provider was unreliable, with average swap-out times of two weeks.

We built a fleet of 60 anti-vandal 20ft units to MCG's specification — full steel doors, lock guards, MCG-blue livery and integrated welfare fit-outs. A dedicated account manager handles weekly call-offs, with guaranteed 48-hour swap-outs anywhere in the North-West.

RESULTS

- 100% of swap-outs delivered within the 48-hour SLA
- Zero successful break-ins recorded in the first 12 months
- 37% reduction in site downtime versus previous provider
- Contract renewed for a further three years in 2026

"DB Building Construction made the impossible feel routine."
